Methodology

These results are from an Illuminate Research poll based on online surveys of 1158 registered New Jersey voters. Surveys were collected between March 5th and 7th, 2024, from cell phone users randomly drawn from a sample of registered voters reflecting the demographic and partisan characteristics of the voting population. Tested names and energy sources were presented in rotation, as were the ballot choices. The survey has an overall margin of sampling error of +/- 2.9% with a confidence interval of 95%. The data are weighted for age, gender, race, geography and education based on a voter demographic model derived from historical registration and voting patterns, but are not weighted by party registration or party identification.

Gas/Electric Preference

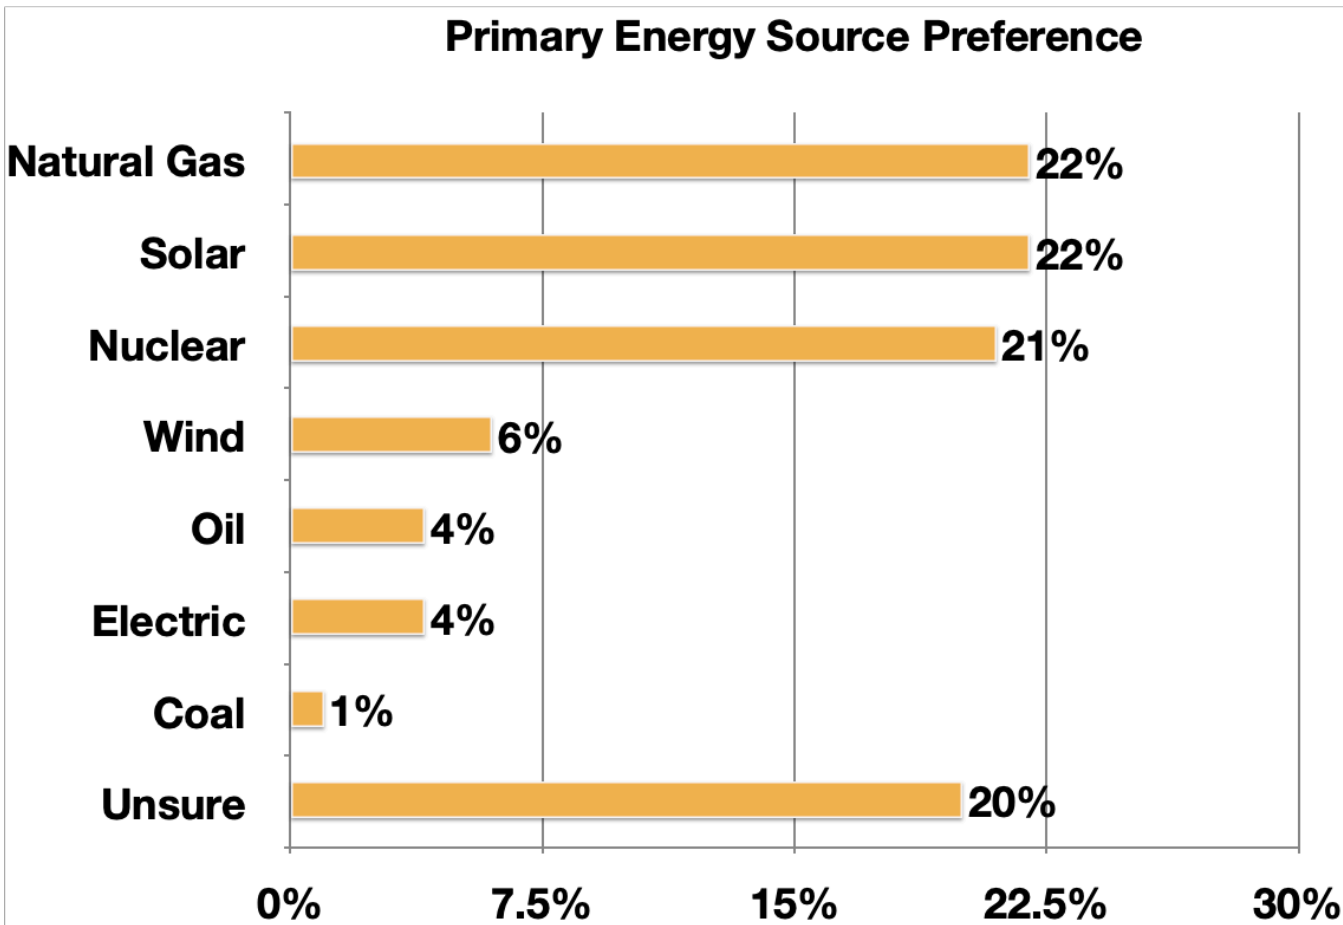

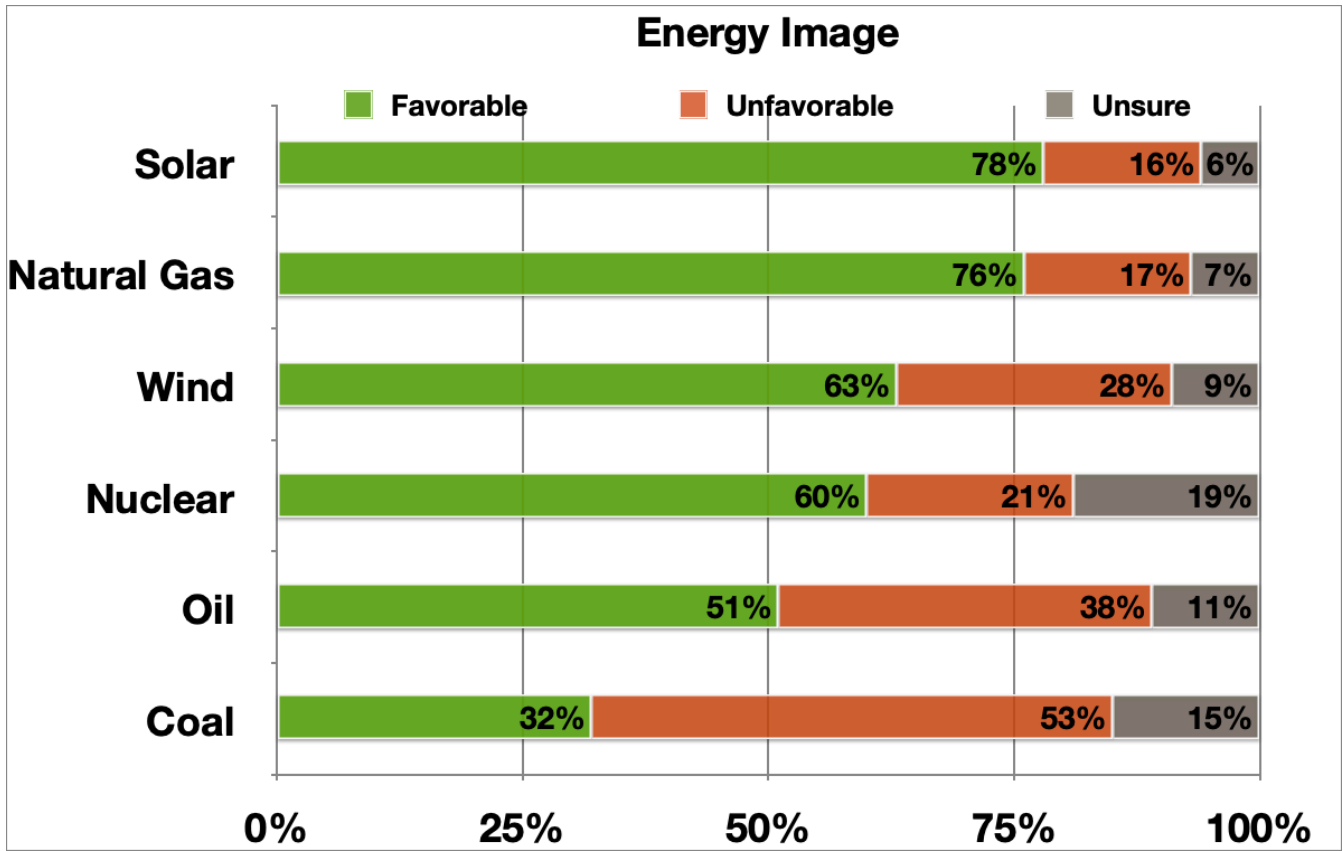

Support for More Wind/Solar

Support for Electric Conversion

March 5-7, 2024 | n = 1158 | New Jersey Registered Voters | MoE +/- 2.9%

What is your opinion of wind power?			
		Frequency	Percent
	Strongly Favorable	439	38
	Somewhat Favorable	292	25
	Somewhat Unfavorable	102	9
	Strongly Unfavorable	219	19
	Unsure	107	9
	Favorable	730	63
	Unfavorable	321	28
	Unsure	107	9
	Total	1158	100

What is your opinion of solar power?			
		Frequency	Percent
	Strongly Favorable	545	47
	Somewhat Favorable	359	31
	Somewhat Unfavorable	84	7
	Strongly Unfavorable	104	9
	Unsure	66	6
	Favorable	904	78
	Unfavorable	188	16
	Unsure	66	6

	Unsure	124	11
	Total	1158	100

Thinking about climate change, which of the below statements comes closest to your opinion?

"Climate change is the greatest threat of our time and we must do everything to stop it immediately even if it means paying more per month and changing our lifestyle."

"Climate change is a problem that we have many years to deal with and can take our time to determine the best solutions and course of actions."

"Climate change is an alarmist hoax to scare people and make elites more money."

		Frequency	Percent
	Threat	428	37
	Solvable	352	30
	Hoax	276	24
	Unsure	103	9
	Total	1158	100

In your opinion, which of the below should be New Jersey's primary energy source?

		Frequency	Percent
	Natural Gas	255	22
	Solar	250	22
	Nuclear	241	21
	Wind	73	6
	Oil	50	4
	Electric	41	4
	Coal	16	1
	Unsure	232	20
	Total	1158	100

The state of New Jersey has proposed requiring all homes to transition from natural gas to 100% electric heat. Do you support or oppose this proposal?

		Frequency	Percent
	Support	230	20
	Oppose	712	61
	Unsure	216	19
	Total	1158	100

When it comes to heating your home and powering your appliances, do you prefer natural gas or electric?

		Frequency	Percent
	Natural Gas	781	67
	Electric	236	20
	Unsure	141	12
	Total	1158	100

Do you support or oppose New Jersey moving toward more wind and solar power?

		Frequency	Percent
	Support	702	61
	Oppose	311	27
	Unsure	145	13
	Total	1158	100

Would you support or oppose New Jersey moving toward more wind and solar power if it meant an increase in your monthly utility bills?

		Frequency	Percent
	Support	339	29
	Oppose	610	53
	Unsure	209	18
	Total	1158	100

The Energy Information Administration has calculated that getting 100% of your power from wind and solar could increase your monthly bill by at least 4 times the current amount. Would you be willing to pay four times more per month in order to get New Jersey off fossil fuels entirely?

		Frequency	Percent
	Yes	101	9
	No	909	78
	Unsure	149	13
	Total	1158	100

Would you agree or disagree that energy security, including energy independence, is part of our overall homeland security?

		Frequency	Percent
	Agree	925	80
	Disagree	87	8
	Unsure	146	13
	Total	1158	100

The Biden administration recently announced it would stop liquid natural gas exports in order to assess their impacts on the economy, global energy prices, and the environment. Which of the below statements comes closest to your opinion?

"This is a good decision that sees the climate crisis for what it is: the greatest existential threat of our time. We must end the use of all fossil fuels no matter the cost."

"This is a bad decision that jeopardizes our economy and the ability to alleviate Europe and Asia's dependence on energy from Russia and the Middle East."

		Frequency	Percent
	Good Decision	379	33
	Bad Decision	520	45
	Unsure	259	22
	Total	1158	100

The State of New Jersey has actively opposed every proposed natural gas pipeline project since 2018 even if they would have reduced monthly utility bills. In one case, the State wasted millions of dollars to advance a pipeline case that it lost in the Supreme Court. Do you support or oppose the State using taxpayer dollars to stop pipeline projects?

		Frequency	Percent
	Support	260	22
	Oppose	666	57
	Unsure	232	20
	Total	1158	100

Governor Murphy has made offshore wind a central pillar of his energy policy agenda since getting elected in 2018, dedicating billions of taxpayer dollars to the effort. However, as of today, not a single offshore turbine has started construction and, based on present timetables, not one will start until after he leaves office. Given that, which of the below statements comes closest to your opinion?

"These are good long-term investments in our sustainable future and I support these goals no matter how long or how much money it takes."

"These investments are not working out as planned; state leaders should stop wasting money and invest in energy that works."

		Frequency	Percent
	Good Investments	392	34
	Stop Wasting	596	51
	Unsure	169	15
	Total	1158	100

In 2023, the New Jersey Legislature and Governor Murphy provided \$1 billion in taxpayer money to Danish developer Orsted to help finance construction of an offshore wind project they were awarded in 2021. Orsted subsequently cancelled all of its New Jersey offshore wind projects just 3 months after receiving the money. Knowing this, would you support or oppose New Jersey's continued investments in wind power?

		Frequency	Percent
	Support	300	26
	Oppose	613	53
	Unsure	245	21
	Total	1158	100

State policymakers are pushing to convert homes and businesses to 100% electric heat, power, and appliances by 2050 in order to combat climate change. Do you support or oppose this effort?

		Frequency	Percent
	Support	414	36
	Oppose	550	47
	Unsure	194	17
	Total	1158	100
